

## rea | ***Azalea<sup>®</sup> Base***

The perfect wheelchair base  
for custom made seat units

Trusted Solutions,  
Passionate People

*Rea Azalea Base* is designed for users seeking a custom-made seat combined with a first-class wheelchair base. The *Rea Azalea Base* is wider in the rear section of the seat, offering the possibility to use larger seating systems on smaller frames. As there are many balance options, the pushing is easier. Another key feature of the Base is the 'Tilt in Space' function - a weight shifting mechanism that ensures reliable stability for the user. All the advantages of our standard *Rea Azalea* models are included. What's more, the *Azalea Base* can be used together with all the parts and accessories that come with other *Rea Azalea* models (excluding trunk supports). Available in 5 colours.

## Seat adaptation

*Rea Azalea Base* is specifically designed to accommodate custommade seats thanks to extra space in the rear of the seat frame and seat adjustability. The backrest is angle adjustable including an increased recline which can be angled via a 'rigging screw' or an attendant operated gas piston.

The seat width can be adjusted from the arm and leg rests, and the depth changed via the telescopic seat frame. These features ensure that the *Rea Azalea* easily adapts to different-shaped seat moulds.

For other Rea Azalea accessories, please consult the Rea Azalea brochure

## Features and Options

### Affixing attachments

The seat offers various attachment holes, plus greater 'open space' at the back.

### Harness attachment

An attachment for different kind of harnesses is also available as an option.

### Seat plate with turnable wedge

An additional +5° seat angle can be obtained, using the optional seat plate with a wedge.

## Technical data

For more comprehensive pre-sales information about this product, including the product's user manual, please see your local Invacare website.
